

Educo Workshops

Digital Learning and Drama

During this workshop teachers will explore new ways to use technology to their advantage in their English teaching classroom or online lesson. Participants will learn how to maximise the potential of a wide range of websites and programmes through fun and interactive games, tasks and projects. Additionally, they will discover how each of these examples can be customised for their personal needs, age groups and language levels.

Obiettivi

- Esplorare il potenziale creativo di programmi come powerpoint, google maps e vari siti web
- Dimostrare esempi pratici di giochi incentrati sulla lingua appropriati per la classe online
- Fornire all'insegnante nuove idee e metodi per rendere l'apprendimento online attivo e coinvolgente
- Rafforzare le conoscenze della tecnologia dell'insegnante e come utilizzarla per massimizzare il tempo di conversazione degli studenti e l'apprendimento linguistico generale
- Acquisire una panoramica delle esperienze e delle sfide di altri educatori mentre si lavora a distanza.
- Modernizzare l'apprendimento in presenza con tecnologie aggiuntive nelle scuole

An Ongoing Commitment

When you complete an Educo teacher course you don't just gain the first-hand experience of our expert teacher trainers but gain ongoing support from a company that cares. All our courses are accompanied by post-teaching materials to put your knowledge into practice. You can also access our free resources online, get discounts on other Educo products and our offices are always available to answer your queries.

What we do...

Educo has four key principles that we believe all teachers and learners should share: Global Citizenship, Digital Innovation, Creative Application and Motivation to Learn. With these four principles we hope to create well rounded 'future proof' teachers and students!

How we do it...

The Educo team works as an Educational Collective with expertise across a range of methodologies and teaching practices. We learn from each other and share what we believe to be the best practices for creating students and teachers that are motivated, innovative, creative and culturally aware.
